## WORLD'S GREATEST APRIL FOOLS TRICKS!

On the morning of April 1, 1974, citizens of Sitka, Alaska awoke to find Mount Edgecumbe, the long-dormant volcano that looms over their town, belching black smoke! *Was the volcano suddenly coming to life?! NO!!!* A local prankster and his buddies had helicoptered a bunch of old tires into the crater and then set them ablaze. When a Coast Guard plane flew over the smoldering cauldron, the pilot saw the words "APRIL FOOL" stomped out in the snow!

See the back page for more all-time great pranks!

# OUR NATION'S HISTORY

The Library of Congress was born on April 24, 1800, when President John Adams approved spending \$5,000 for "such books as may be necessary for the use of congress." With this money, 740 books and three maps were purchased to start the collection. The permanent library building wasn't finished until 100 years later – it's shown here under construction in 1893. Today, the Library of Congress holds 110 million books and other items and, with 530 MILES of shelves, is the largest library in the world.

# INTENSE.

The most effective (and time efficient) exercise for good cardio health is alternating short, cheetah-like bursts of intense activity with longer periods of easier effort. So-called "high intensity interval training" starts with a few minutes of warm-up, then the fun begins: 30-60 seconds of cheetah-style, all-out, hard-as-you-can-go, 100% effort (biking, running, swimming, etc.), followed by 3 or 4 minutes of 50% effort, repeated up to 5 or 6 times, for no longer than half an hour.

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
