

Beth Mitchell is a 1988 Conemaugh Township graduate. After high school, she attended the Pennsylvania Academy of Cosmetology, and she graduated in 1989.

Continuing her passion for cosmetology, she started her career at Regis Salon in the Richland mall. After four years, Beth moved her employment to JCPenny's in the Galleria Mall and has worked there ever since.

In the past year, she has decided to come back to her roots and bring her family back to her Alma Mater, Conemaugh Township.

During Beth's days at Conemaugh Township, she was a member of her school's student council, rotary club, and she was even the student secretary. She was also a player on the girl's basketball team and remembers when the Rowdie section was once known as "The Hecklers".

Beth also recalls that her favorite teacher was Mr. Bridgewater, one of her science teachers. She remembers him as very humorous and always caring for his students.

While looking back at her high school experience at Conemaugh Township, Beth reminisced on all of the fond memories she shared with her friends and classmates. One of her favorite memories from senior year was when the whole school was on strike, but they all had to attend class until June 22. Since Beth was in the senior class, she was excused at twelve o'clock all of June. After school, her whole grade would go swimming at The Showers to celebrate the last of their high school days. Beth added, "I remember these days because it was one of the last times we could be together as one."

After reflecting on her time in high school, Beth stated, "I wish I would've known how fast it was going to go by; it was one of the best times of my life."
