

**Christine Troxell**

**Christine Troxell on vacation with her husband, Robert, and children, Trenton, Katherine, and Zane**

Christine Carnahan, today Christine "Chrissy" Troxell, attended the Conemaugh Township Area Middle School/High School and graduated third in her class in 1988! After graduating Chrissy attended the University of Pittsburgh. There she received her bachelor of science degree in pharmacy in 1993.

In 1994 Ms. Carnahan married Robert Troxell, whom she met at Pittsburgh in pharmacy school. After their marriage they moved to Erie. There, the couple worked as retail pharmacists for Rite Aid.

When Chrissy and Bob decided to have a family, both agreed Chrissy's hometown locale in the Johnstown area would be the best place to raise their family. They believed moving back to the small town area would offer values that could not be gained elsewhere. Once there, they completed their family with three children; Trenton, Zane, and Katie.

Chrissy is currently employed as a retail pharmacist at the Boswell Prescription Center and lives in Conemaugh Township. All of her children attend school in the Conemaugh Township Area School District. As a result, she is involved in many aspects of school life. Chrissy is a current school board director. She is also the president of both the football and track and field booster organization. In addition, she is the fifth grade girls basketball coach and has been a reading night committee member for the past eleven years.

Outside of school-related functions Mrs. Troxell also enjoys volunteering her time as a Sunday school teacher at St. David's Lutheran Church and Camp PARC senior counselor.

When asked about her favorite teacher she said, "There are too many to name." Chrissy continued to say there were many great teachers who made a difference in her life.

Chrissy's fondest memory from high school was a service project she participated in during her senior year when she was on the student council. The group hosted an overnight dance at the school to raise money for two boys with cystic fibrosis who Troxell had cared for through her teenage years. Her favorite part of the whole dance was presenting the mother of the two boys with the check of donated money.

Christine commented, "We all worked together to make a difference."
